NUMBER 49

## Advertisement For Bids.

### OFFICE OF THE FISCAL COURT OF ROCKCASTLE:

Sealed proposals addressed to the Fiscal Court of Rockcastle County for the construction of that part of the road leading to the Madison County line from Mt. Vernon, Ky., between Mt. Vernon and Roundstone station, known as State Aid road No. 43, will be received up to noon Oct. 4, 1915, and will be publicly opened and read at 2 o'clock p.m. on said date. The plans and specification for said road may be seen at the office of the Clerk of the Rockcastle County Court, at Mt. Vernon, having been approved by the Fiscal Court of Rockcastle County and the Commissioner of Public Roads, and bids must be for the work done in accordance with said plans and specifications. The road is approximately seven miles.

Bids will be received on the work as a whole, or for the first three miles out of Mt. Vernon, or for each mile separately. Bids will also be received for grading and macadamizing of said road separately, in the same divisions just set out. The said Fiscal Court reserves the right to reject any and all bids.

Before contracts are binding on the first parties they must receive the approval of the Commissioners of Public Roads. Each bid must be accompanied by cash or certified check, payable at sight to the order of the County Treasurer for 5 per cent. of the amount of the proposal; which check shall be held until the execution of the contract.

Before the contract is awarded, the successful bidder will be required to furnish a bond equal to the amount of the proposal for the faithful performance of the work in accordance with the aforesaid plans and specifications.

All work to be done under the directions and supervision of the state road department.

By order of the Fiscal Court of Rockcastle County.

S. F. BOWMAN,  
Clerk, Rockcastle County Court.

JUDGE W. R. CRESS

Who will soon begin a speaking tour of Rockcastle in the interest of his candidacy for Circuit Judge. See the speaking dates elsewhere in this issue.

THE highway question is still a live one, and not dead, as some local people have been led to believe, on account of a few of our counties seeming to be asleep in the line of construction, among them is our own county, the indications are that a portion of one of the three lines will be let within the next five weeks. The Dixie Boone will be completed thru Bell county before Christmas. Knox and Laurel are in about the same shape as Rockcastle as far as construction is concerned. There is no doubt that these thru highways will be built, but the long delay in beginning the work in the three counties mentioned is annoying to say the least.

In connection with the 104 counties that are applicants for state aid to apply on inter-county seat roads. Our State will have a number of important thru highways including Boone Way from Cumberland Gap via Mt Vernon, Louisville. East Dixie Highway from Cumberland Gap, via Mt. Vernon, to Cincinnati. West Dixie Highway from Louisville to Nashville. The Northern terminus of Dixie Highway is Chicago; the Southern is Miami Florida, with East and West loops at Indianapolis, converging at Chatanooga. Dixie Bee Line is proposed to run from Chicago to Nashville via Evansville, Henderson, Hopkinsville, Guthrie, &c. The Jackson Highway with loops, one beginning at Chicago, running to Louisville and there converging with Eastern loop, starting from Niagara Falls, coming into Kentucky at Maysville, passing thru Fleming, Nicholas and Bourbon counties to Lexington, thence over the route of Boone Way (Boone-Jackson Highway) to Louisville. From Louisville to New Orleans the Jackson Highway will probably be routed via Bardstown, Glasgow, Scottsville, Nashville, Birmingham, Montgomery, Mobile and on to the crescent city. Ten states are represented in a big convention that met in Nashville yesterday for a two days conference at which the routing of this highway was to be done and the election of officers. Peter Lee Atherton of Louisville, now temporary President, will, no doubt, be elected to that office as he has done more to push forward the movement than any other person.

Eastern Kentucky counties, including Letcher, Leslie, Beatty, Breathitt, Lee and Estill, have started a movement for constructing a highway from Whitesburg to Richmond, to connect at the latter point with the Dixie Highway. It has been stated the road would be named the "McCreary Highway" in honor of our Governor, who has been such a friend to the good roads movement in Kentucky.

THE Kentucky Gazette, founded by John Bradford, August 11, 1787, at Lexington, Ky., the first newspaper published west of the Alleghenies, has been revived and began its weekly publication with headquarters in Inter-Southern building, Louisville, by the Gazette Publishing Co.

The Kentucky Gazette in all the years of its history has never lost its identity or been merged with any other paper. To day it holds unchallenged its title as "Pioneer Newspaper of the West" and the publishers of the paper you hold in your hand, in reviving The Kentucky Gazette, have as their ambition the desire to make it "Kentucky paper, of Kentucky, by Kentucky, for Kentucky." It is intended to be the medium of expression for any Kentuckian who desires to use it. It is non-political and non-sectarian. Its energies will be devoted

to the welfare of Kentucky—to Kentucky's industries, agriculture, education and social life."

### LINCOLN BOND ELECTION

By the smug majority of only 52 votes, the proposition to issue \$130,000 in bonds to build new pikes and improve the old roads in Lincoln county was defeated at the special election Saturday. The vote was 864 for the bonds and 916 against. The question of whether a two thirds vote is necessary to vote bonds is now before the court. Many contend that the courts will hold that only a majority vote is required, which is what those who favored the bond issue hoped to get in the election Saturday. Those who are for a bond issue to rebuild the Lincoln county roads say that another election will be called within a few months when the bad condition of the public thoroughfares becomes more apparent to the people as winter weather sets in. An analysis of the vote cast shows that only a very small part of the voting population of Lincoln county participated in the election. Out of about 4,000 votes in the county less than 1,800 votes polled, which shows an amazing lack of interest in the subject. Up to the East End the vote was overwhelmingly in favor of the bonds as the people of Crab Orchard want and need very badly a pile from the metropolis of the East End out to Bee Lick.—Interior Journal.

The largest underwriting syndicate the Western world has ever known was in process of forming to day to handle the proposed "billion dollar" credit loan to Great Britain and France, which it was reported to a sum yet to be determined, between \$600,000,000 and \$800,000,000.

This mammoth syndicate, according to tentative arrangements said to have been agreed upon, will be nation-wide in its character and will comprise national and state banks and trust companies from the Atlantic to the Pacific. A number of so-called pro German financiers, it was reported, will join the syndicate if it is finally agreed that the proceeds of the big loan shall be available only for commodity exports and not for munitions of war. The price at which this syndicate will put out the British and French government bonds which will be issued to secure the issue will be paid. The bonds will pay 5 per cent interest and will be a first mortgage upon the entire British Empire and France and her colonies. All other obligations of the two nations will be subordinated to the proposed big bond issue here. Even the staggering sums raised by bond issues at home, with which the war has been carried on, will come second to the loan to be floated here when the time comes to pay the principal.

THE farmers are very busy now saving fodder and manger corn. Corn is short in this part and lots of farmers are moving their cornfields especially in the bottoms where the corn drowns out. —There is a revival meeting going on at Clear Creek Baptist church, conducted by Rev H. Ponder. It began Sept 12, and probably will continue to next Sunday. There has been ten additions and the interest seems to increase. The church house will not accommodate the people. Sidney B. Croucher, a widower, aged 52, and well known all over the country, on Sept. 10, stole Miss Myrtle Berry, age 17, the daughter of J. J. Berry, and eloped to Jellico, Tenn., and were married. Their many friends j in wishing them a happy life.

Mr. D. Lester Clark, son of Mr. W. G. Clark, deceased, and a bright young man, was married on Sept 9th, to Miss Delia Ballinger, the charming daughter of Mr. John R. Ballinger, of Johnston, Squire Chasteen officiating. Mr. and Mrs. Clark will make their home at Bear Wallow, Madison county, where Mr. Clark has a farm. —Alfred Wood, who taught our school and gave such unanimous satisfaction, and was employed to teach the same school this year, taught two months and resigned and entered the medical school. Sherman Chasteen, who was teaching Climax school, resigned and accepted our school and trustees of the Climax school employed J. W. Cox to finish that school. The people regretted very much to give Mr. Wood up. He is a bright, promising young man. John R. Cope, who has been so low, is no better.

BOWLING GREEN, KY.

D. M. PENNINGTON,  
Mt. Vernon, Ky.

Dear Doctor:

The writer has been extremely busy since his visit to your city and has been away from the office practically all of the time. Therefore, he has seemed to neglect you and your epidemic of typhoid fever. It is our opinion, based upon careful consideration of what was learned by the writer's visit, that your epidemic is due to the drinking of the water from the Spout Spring, although everything points to pollution of the entire water bearing strata from which these springs and your shallow wells receive their water. The only solution I can see in the case of your city is that you install a pumping station, reservoir and purification plant. While this would cost some little sum to do, still you must consider that in addition to furnishing an unlimited amount of water for all household purposes assuring cleanliness, saving real drudgery for the housewife, as well as protecting health. There is also the great element of fire protection to be considered. I note in the paper that your city has been visited in the past week by a disastrous fire. A few such conflagrations would more than pay the cost of the necessary water plant, and from a cold business point of view, your city can do nothing that will return a greater investment for the money expended.

We shall be glad to render you any assistance in our power for the attainment of this end.

Very truly yours,  
D. P. CURRY,  
State Sanitary Engineer.

Hugh McBee, of the Quail section, has typhoid.

Mr. Jesse Livesay, who has fever, is improving.

Mr. and Mrs. Wade Ballard, of Covington, are visiting his mother and brother, Judge G. M. Ballard.

Charles Chandler, of Bromo, who had a severe attack of typhoid fever, is able to resume his school at Rock Spring.

Miss Ethel Davis, was with homefolks Saturday and Sunday. She is teaching in the Western part of the county.

Mrs. Mary Williams, who returned from Covington last week is feeling better than she has felt for two or three years.

W. H. Fish was in London from Saturday until Monday, with his wife who had been there for a week. They returned home Tuesday.

Mr. J. R. Dodson and wife, of Wildie, spent a few days here last week. Mr. Dodson was making some repairs to his property in the Asher edition.

Rev. Jack Lunsford, who has fever at his home in Madison county, will be able to take charge of his school New Chestnut Ridge in about two weeks.

W. T. Davis, who for a number of years was one of the Signal force, is again on the job. Better or more faithful men are not found in the print shops of Kentucky.

Miss Ella Mae Purcell has accepted a place in Bethel & Lewis' office. Miss Purcell is a daughter of Mr. and Mrs. J. J. Purcell, of Plato Pulaski county.

Mrs. Bessie McClure and sister, Miss Sallye Reynolds left yesterday for Corbin, Jellico and other points for a two weeks' visit. Miss Amy Proctor will fill Mrs. McClure's place in the post office during that time.

I. M. Brown, of East Bernstadt, who owned the livery stable and restaurant, which burned last Thursday night, was here Monday and indicated that he would rebuild the restaurant, and would begin work at an early date.

Judge and Mrs. R. G. Williams are feeling much better about their son, Richard III, which was bitten by a mad dog, or supposed to be mad dog. He has had the full 21 doses of the Pasteur Treatment and every indication points that none of the poison entered the system.

George, William and James Owens visited their mother, Mrs. Kate Owens, last Sunday, taking their children along. There were present the three children of Mrs. Owens, mentioned above, twenty grand children, and six great-grand children. It was not a family reunion, they just happened to go on the same day.

Rev. John Macmillan is in Louisville to-day to secure a residence to move to next week. We regret very much to lose Rev. Macmillan and his wife, and the church going people of Mt. Vernon will miss him greatly from the pulpit, in which station he has been a favorite since his first visit to Mt. Vernon. Since we must lose, we trust the change will be a profitable one to him and his, and the cause which he represents,

Miss Martha Sparks left first of the week for Nashville where she entered college.

Mr. and Mrs. Jack Fish, of the Wildie section, are the proud parents of a brand new boy.

If you favor the issuing of bonds to install Water Works now is the time to say so. \$10,000 will install a first class plant. Figure what it means to the town, and from a standpoint of health and fire protection, figure the cost so such a plant will pay for itself in a few years.

SPIRO DEFEATED:—The Spiro base ball boys vs the Level Green boys again Saturday, with Payne "Speedy Boy" pitcher and Mullins catcher. But the Level Green boys with McKenny pitcher and Buchanan catcher, out classed them and won by a score of 11 to 2.

The Dixie Land Co., of Middleboro, Atty. John Howard, President, has closed a deal involving 2,000 acres of coal, timber and farming lands in Laurel county, which is in close proximity to the Dixie Boone Highway. They will very soon develop a part of this and will lay part of it off in subdivisions for small farming and truck gardening.—3 St8s.

The town board deserves much credit for the improvements which have been made to the streets. No board has ever made more improvements, revenue considered, than the present board. Two or three more years like the present year and Mt. Vernon will have streets second to no town in Kentucky and the beauty about it is that it has all been paid for.

WATER WORKS: Estimates are being made up on the proposition of putting in a water works system in Mt. Vernon. It is believed that a comprehensive system can be established for \$10,000. The business and professional men favor the proposition for either a stock company, private individuals or others to build it, or to put the question before the citizens as to advisability to vote a bond issue for the construction of the plant.

Vernon to Roundstone, the route having already been surveyed and approved by the State Commissioner. Read the order on first page.

Mr. Robert F. Spence, County Agent of the U. S. Department of Agriculture, will speak to the business men and citizens of Mt. Vernon and Rockcastle county at the Court House to night at 7:30 o'clock. Mr. Spence is doing good work in the agricultural line in this county and it is hoped there will be a good crowd present to hear him. Every farmer is invited to come and bring his family.

FRANCIS HSINGER:—Mr. Jack Hsing and Miss Willie Francis were married last Saturday evening at the home of Mr. and Mrs. J. W. Vanwinkle, Mr. Vanwinkle performing the ceremony which made them man and wife. The groom is one of Rockcastle's most progressive farmers and best citizens. The bride is the youngest daughter of Dr. and Mrs. W. T. Francis, and possessed of the many graces of mind and heart, will fill the home she will adorn with happiness and will prove to be truly a helpmate and companion to the husband she has chosen to honor with her hand. The Signal joins with their many friends in extending congratulations to this splendid couple.

PONDER-BAKER:—Mr. Fred Baker, the only son of Mr. and Mrs. U. G. Baker, of our city, and Miss Carrie Ponder, daughter of Mr. and Mrs. Daniel Ponder of Livingston were married last Sunday at the home of the bride. The Rev. Jones officiated. The wedding was a very quiet affair, witnessed only by a few close friends and relatives. The happy couple came to Mt. Vernon on the afternoon train and for the present are with the groom's parents. The bride is an exceptionally beautiful and attractive young lady. The groom is from one of our best families, and those who know him, consider him one of the coming young men, who will make his mark in the business world, following in the footsteps of his father, who is one of the county's best financiers. The congratulations on the happy event are numerous and this paper is greatly pleased on this occasion to add its hearty good wishes to those being so freely extended.

STATE RESERVE:—For the benefit of those who do not know, or those who have probably forgotten, we desire to again call attention to that territory of Rockcastle, which was recently stocked with Ring Neck Pheasant furnished by the State, and which territory is held as a State Reserve. The territory is included within the following boundary: Beginning at the Big Fill and running direct line to Orlando; thence up Roundstone creek to Langford, thence with Renfroe creek to that point where the Richmond road crosses said creek, thence with the Richmond road, including all lands East of said road to the beginning. A number of the farmers have gone to considerable trouble and expense to get these birds and in order to protect them for a period of five years, no time will be lost to prosecute anyone guilty of killing or molesting them in any way. The law is very plain and for the benefit of the hunters our advice is to stay off this property. If found on the property included in this reserve with a gun, the offense is just the same and the offender will be prosecuted. Game Warden Wallace Laswell requests us to say that he will see to it personally that all persons violating any part of these provisions will be prosecuted to the extent of the law.

## RUPTURE EXPERT HERE.

Seeley, Who Fitted Czar of Russia, called to Richmond.

F. H. Seeley, of Chicago and Philadelphia, the noted truss expert, will be at the Glendon Hotel and will remain in Richmond Friday only, Oct. 1st. Mr. Seeley says:

"The Spermatite Shild as now used and approved by the United States Government, will not only retain any case of rupture perfectly, affording immediate and complete relief, but closes the opening in ten days on the average case. This instrument received the only reward in England and in Spain, producing results without surgery, injections, medical treatments or prescriptions.

Mr. Seeley has documents from the United States Government, Washington, D. C., for inspection.

"Less than two weeks ago I obtained this Tanlac. The medicine was just what I needed. It went straight to the spot. I strengthened right up. My appetite is improved as well as my sleep. If I had paid \$1000 for the medicine it would have been worth that to me. The anticipation of taking the next dose of Tanlac is a real pleasure."

### ADVERTISE!

Mr. Business Man, have you thought about the fact that each succeeding year the mail order houses are increasing their sales, and other sales, and their business continues to flourish regardless of howling hard times?

Why is it that a mail order house can sell \$4000 to \$6000 worth of goods a year to Corbin people and vicinity and let them pay the freight on them, while merchants here handle almost any article that is ordered, and at a price that is no higher and oftentimes even less? They do it.

If you will keep a check of the parcel post, the express and freight offices, you will find that more than the above amount is yearly being shipped into to this town by the mail order houses. You can't educate the people to hunt here for what they want, when it is pictured a thousand places in a thousand homes, in ten thousand catalogues.

You must fight fire with fire. Advertise. Advertise every week. Advertise continually and persistently. Advertise like the mail order houses do, and watch the result within the next few years, otherwise the home merchants will have to give way to the foreign mail order houses, who will certainly take the day.—Corbin Times

## Forest Fires

The Greatest Destructive Agency to the Forests of the State

FOREST fires undoubtedly are one of the greatest destructive agencies to the forests and property of the state. It is estimated that from 1911 to 1914 the annual loss from forest fires was \$30,000 each year and that there were annually 175,000 acres burned over. A study of the forest fire situation by the state forester since 1913 has shown that over 60 per cent of the known causes of fires reported to his office were due to carelessness and that they

could have been prevented by reasonable diligence on the part of the individual. The two chief causes of forest fires are burning of brush in the spring and hunting in the fall. It is easy to see that with a little care both of these causes could be eliminated. Brush could very easily be burned at

a time when winds are not blowing and when the ground is not so dry that fire would spread in every direction from the area to be cleared. Also a little care in clearing the space outside the area to be burned over would go a long way in preventing the spread of fire. In the fall the hunters do a large amount of damage to coon and possum hunting, burning down trees to

obtain these animals, worth a few cents, and the result is that timber worth several thousand dollars is destroyed. Bee hunters also set fire to the trees to get the honey, and boys and other individuals set fire to the leaves on the ground to burn them off in order that they can easily find the nuts. Fires from these causes do a large amount of damage each year, and little care and thoughtfulness would prevent them altogether.

### Erosion Caused by Cutting Away Forests at Headwaters of Streams

A large portion of this farm was washed away in a freshet. The farm formerly came to the present edge of the stream.

### An Upland Forest

The forest fires have been kept out of this area, and the timber is in first class condition. Defects due to forest fires reduce the value of the timber products as high as 50 per cent. Good trails make the protection of the timber an easy matter.
